

integral Security Solutions

**Reduce
Theft**

**Increase Your
Bottom Line**

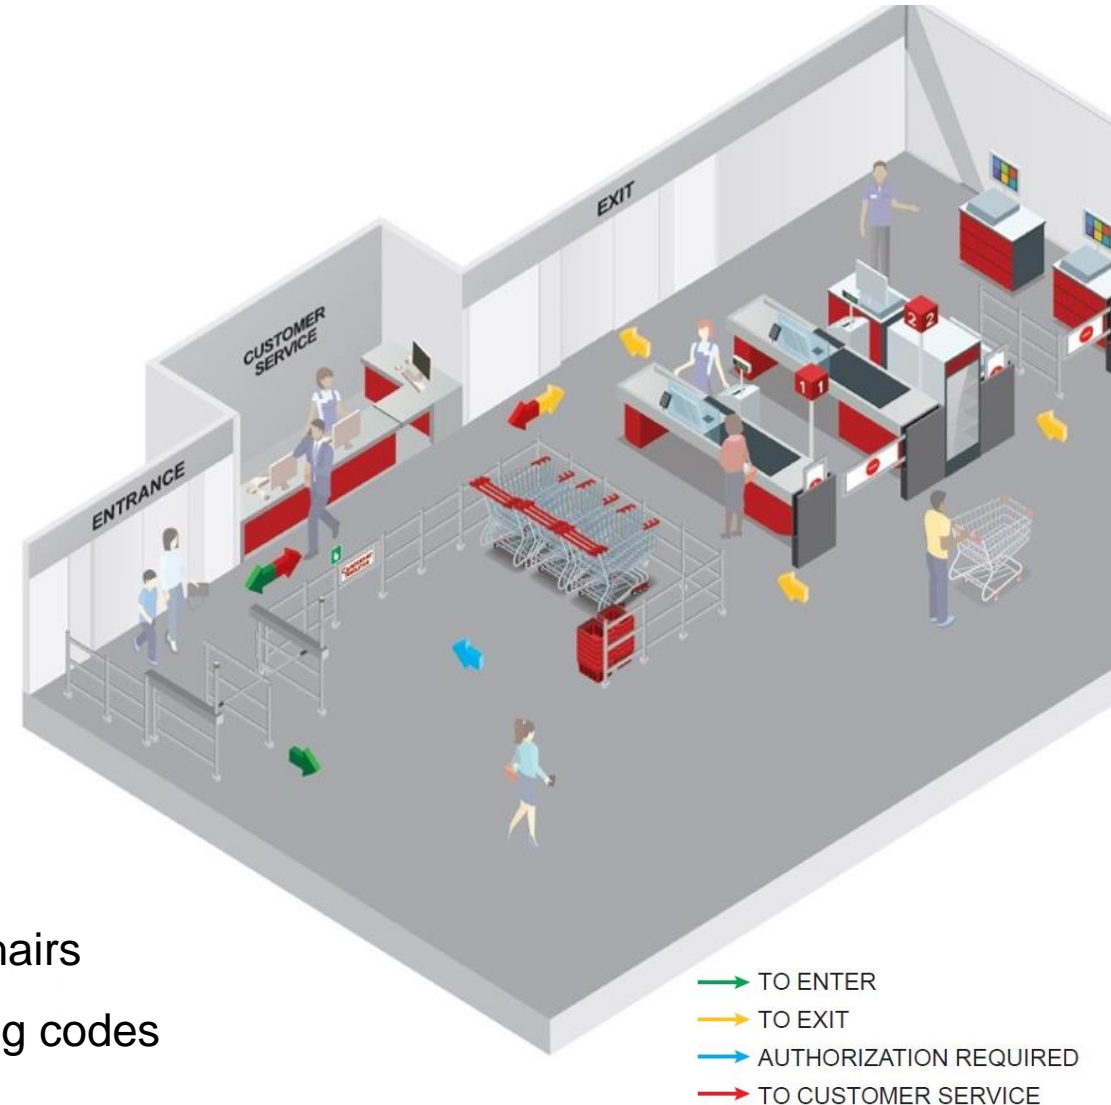

**Improve
Traffic Flow**

Why Entrance Control?

Benefits of Entrance Control

- Deters and diverts thieves
- Consumers used to this in public places/venues, offices, etc.
- Enforces a defined one-way traffic system through the store
- Helps to keep employees, customers and merchandise secure
- Reduces Shrinkage from shoplifting and ORC
- Reduces need for additional staff to monitor entrance and exit
- Protects store from unpaid returns at customer service
- Fully customizable to each store's layout and configuration
- Protects unattended cash lanes
- Customer friendly: No interference with carts, strollers & wheelchairs
- Installation friendly: compatible with fire, electrical, ADA & building codes

The most effective countermeasure to increasing retail loss, is one that reduces the likelihood of the crime being committed in the first place. The perceived risk of being delayed or apprehended is a motivating factor to deter the criminal activity before it starts.

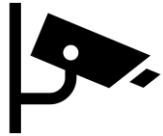

Key Operational Benefits

- 1. Customization for any store layout**
- 2. Staff and customer safety**
- 3. Staff shortages, high turnover, staffing gaps = more opportunity for shoplifting**
- 4. Increased need to manage traffic flow**
- 5. ROI is typically less than 6 months- a noticeable improvement in your bottom line**
- 6. Low maintenance with a system that last for several years**
- 7. Does not reduce merchandising**
- 8. Prevention instead of incident response**
